

Thank you

FOR CONTRIBUTING TO THE RENEWABLE REVOLUTION

The **22,636,005,223** beverages in PlantBottle® packaging distributed since 2009 in the US and Canada helped save the equivalent of*

WHAT IT IS

PlantBottle® packaging is recyclable PET plastic that's partly sourced from plants

renewably sourced

30% MADE FROM **PLANTS**, means less oil in our packaging

recyclable

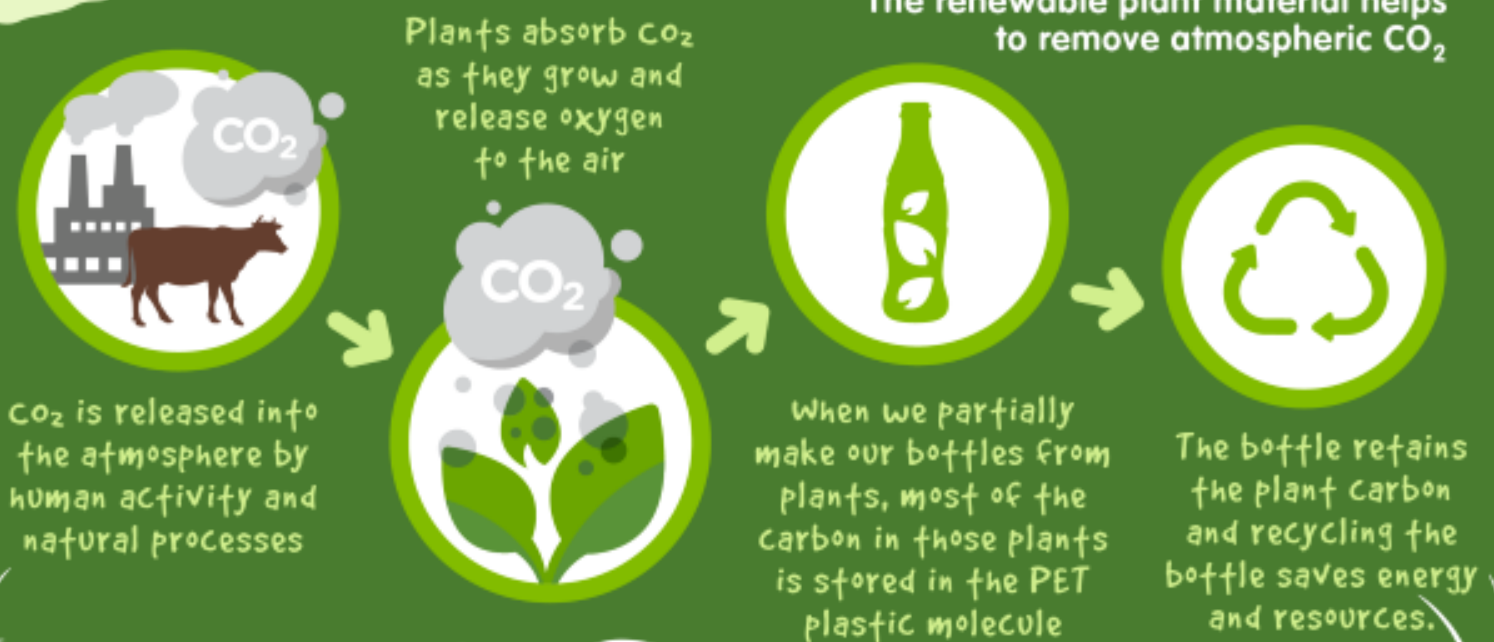

PLANT-BASED PET plastic that is **FULLY-RECYCLABLE**

innovative

Our use of breakthrough technology is **PLASTIC WITH A PURPOSE**

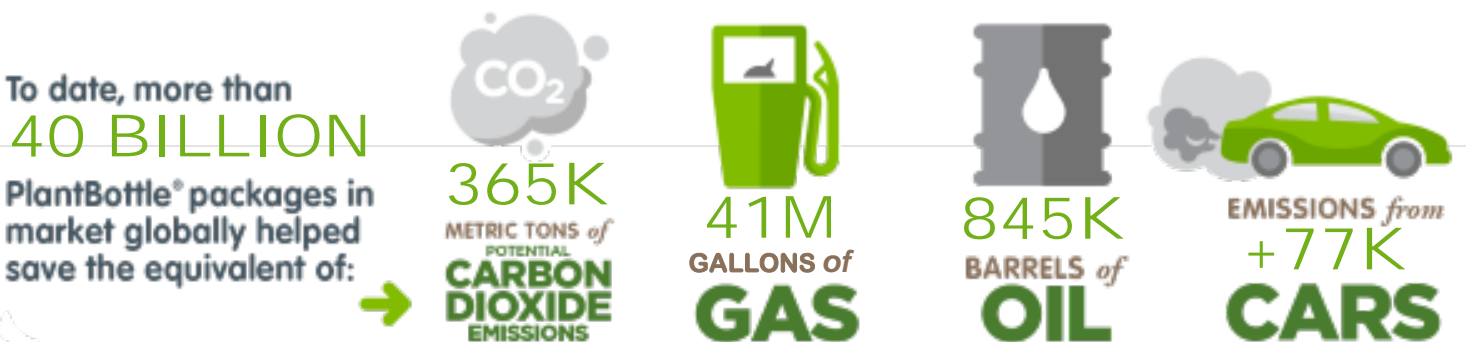

HOW IT WORKS

The renewable plant material helps to remove atmospheric CO₂

WHAT IT DOES

Renewable natural resources reduce our reliance on fossil fuels

Less dependency on oil for a lighter footprint on the planet...

I'll drink to that!

*Compared to traditional oil-based PET plastic bottles
